Don't use it, but mine is:

```
$ cat ~/.kde/share/config/kopeterc [${Version}]
```

```
update_info=kopete-jabberproxytype-kconf_update.upd:kopete0.9/r1,kopete-account-kconf_update.u  
pd:kopete0.7/r1,kopete-account-kconf_update.upd:kopete0.10/r1,kopete-jabberpriorityaddition-kconf  
_update.upd:kopete0.9/r1,kopete-pluginloader2.upd:kopete0.8/r1,kopete-pluginloader.upd:kopete0.7/  
r1,kopete-nameTracking.upd:kopete0.9/r1
```
